5. What are the advantages of using CH (Combined Harvester) in agriculture production?

Or

Read the following paragraph and answer the following questions.

Over time, people preferred scarce and attractive metals as a medium of exchange. Copper, bronze, silver and gold are durable, can be divided into parts and be carried around. Since they were scarce, they became acceptable by all. However some problems remained and new problems came up. For every exchange the metal had to be weighed and later on, traders were not sure about the quality of the metal. What one might get in exchange may not be pure gold or silver. After some time, there was a serious problem of trust in the quality of metal that was used as money for exchange.

1. Name some durable metals.
2. Are all the problems solved with the invention of money?
3. people preferred scarce and attractive metals as _____
4. Why were metals preferred for use as money?
